Material and design development for Atelier I collection / MERIDA

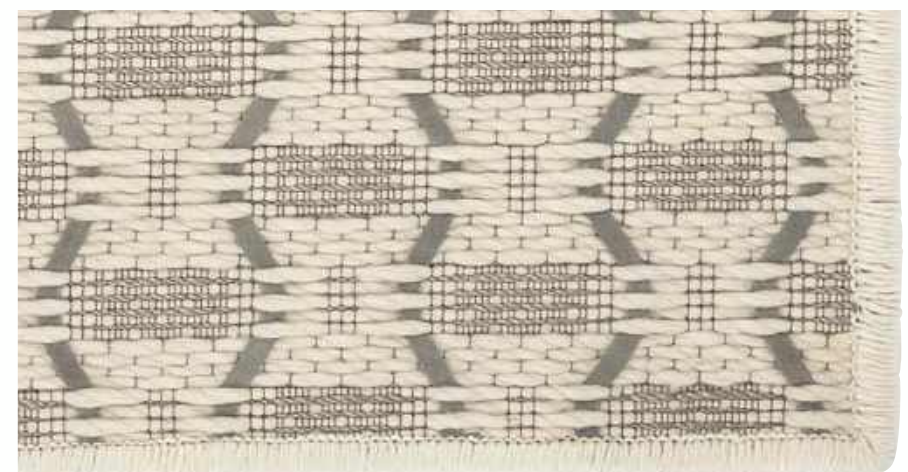

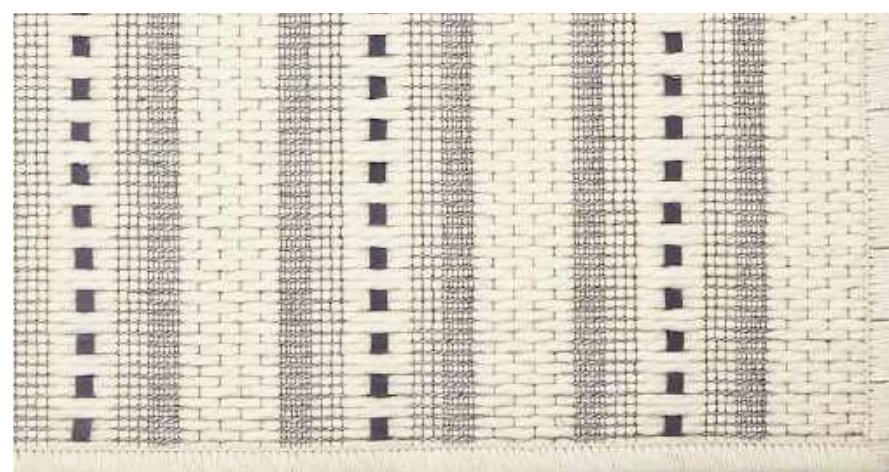

Material and Dobby woven development for Atelier I collection / MERIDA

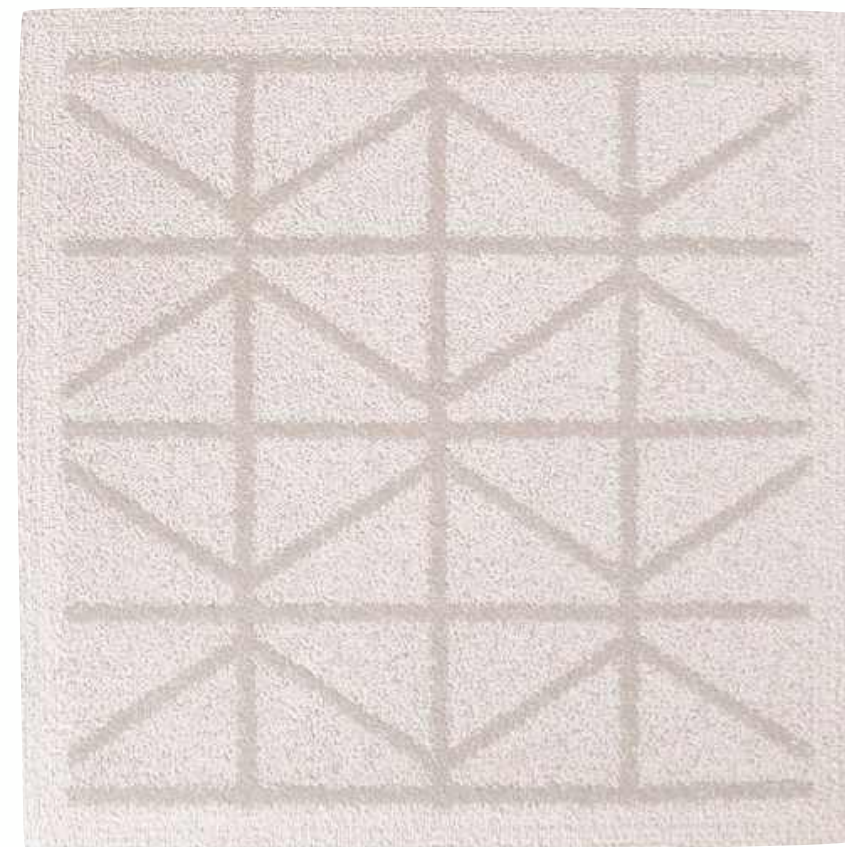

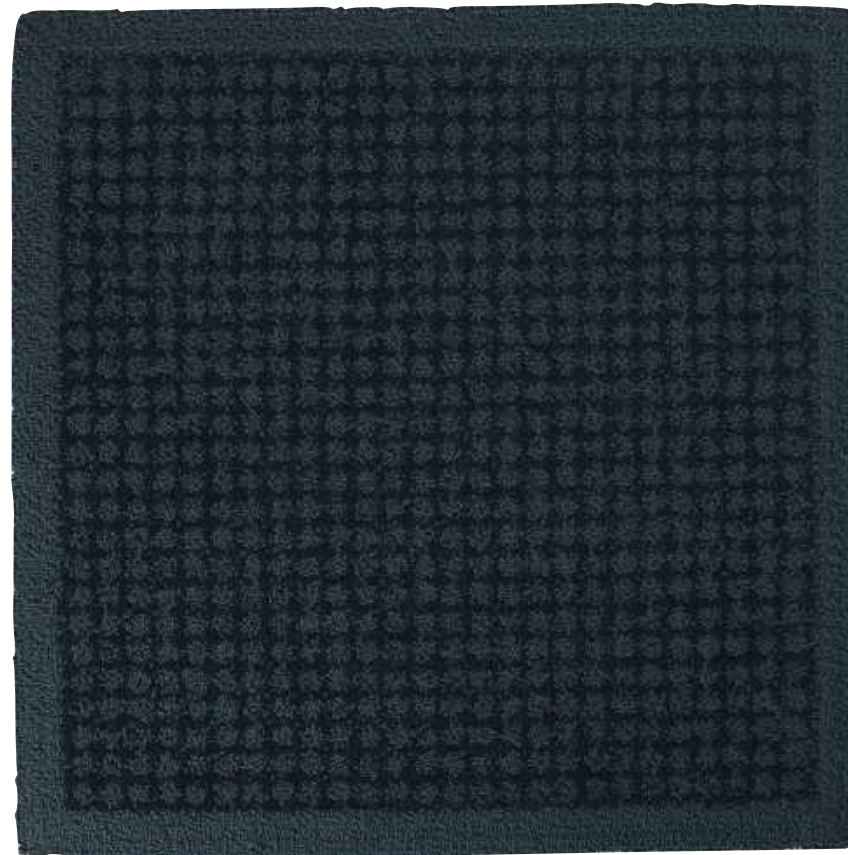

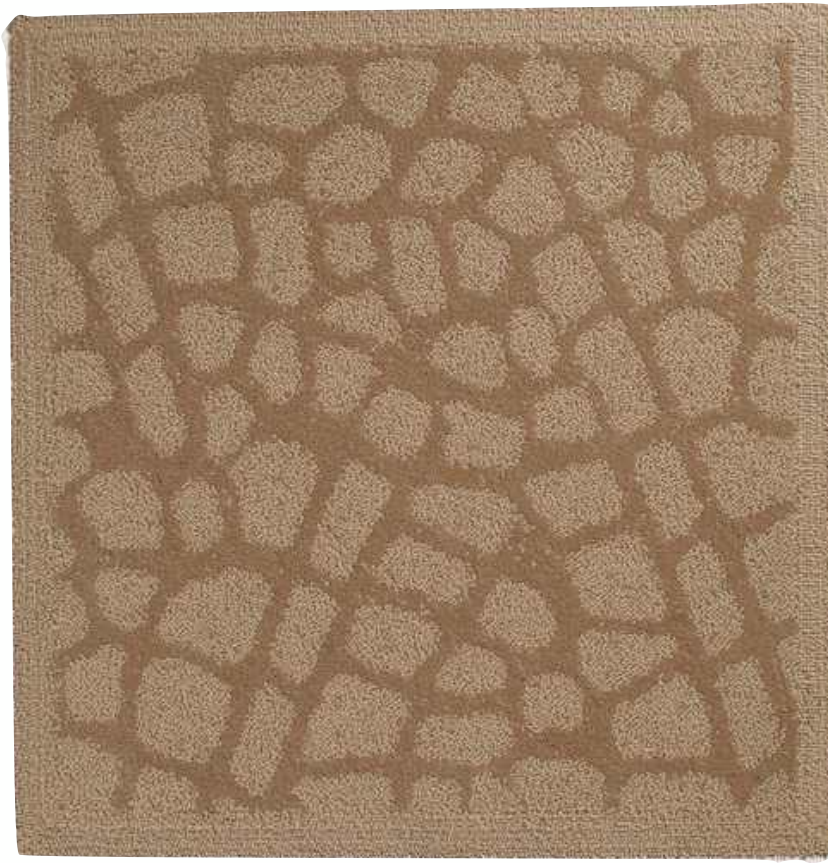

- Design concept: create a line of rugs utilizing manipulation of the surface by hand
- Extra long "floats" were cut or adorned with suede lace, transforming the final product
- This was an exploration of the relationship between machine and hand
- In collaboration with overseas vendors and internal production team

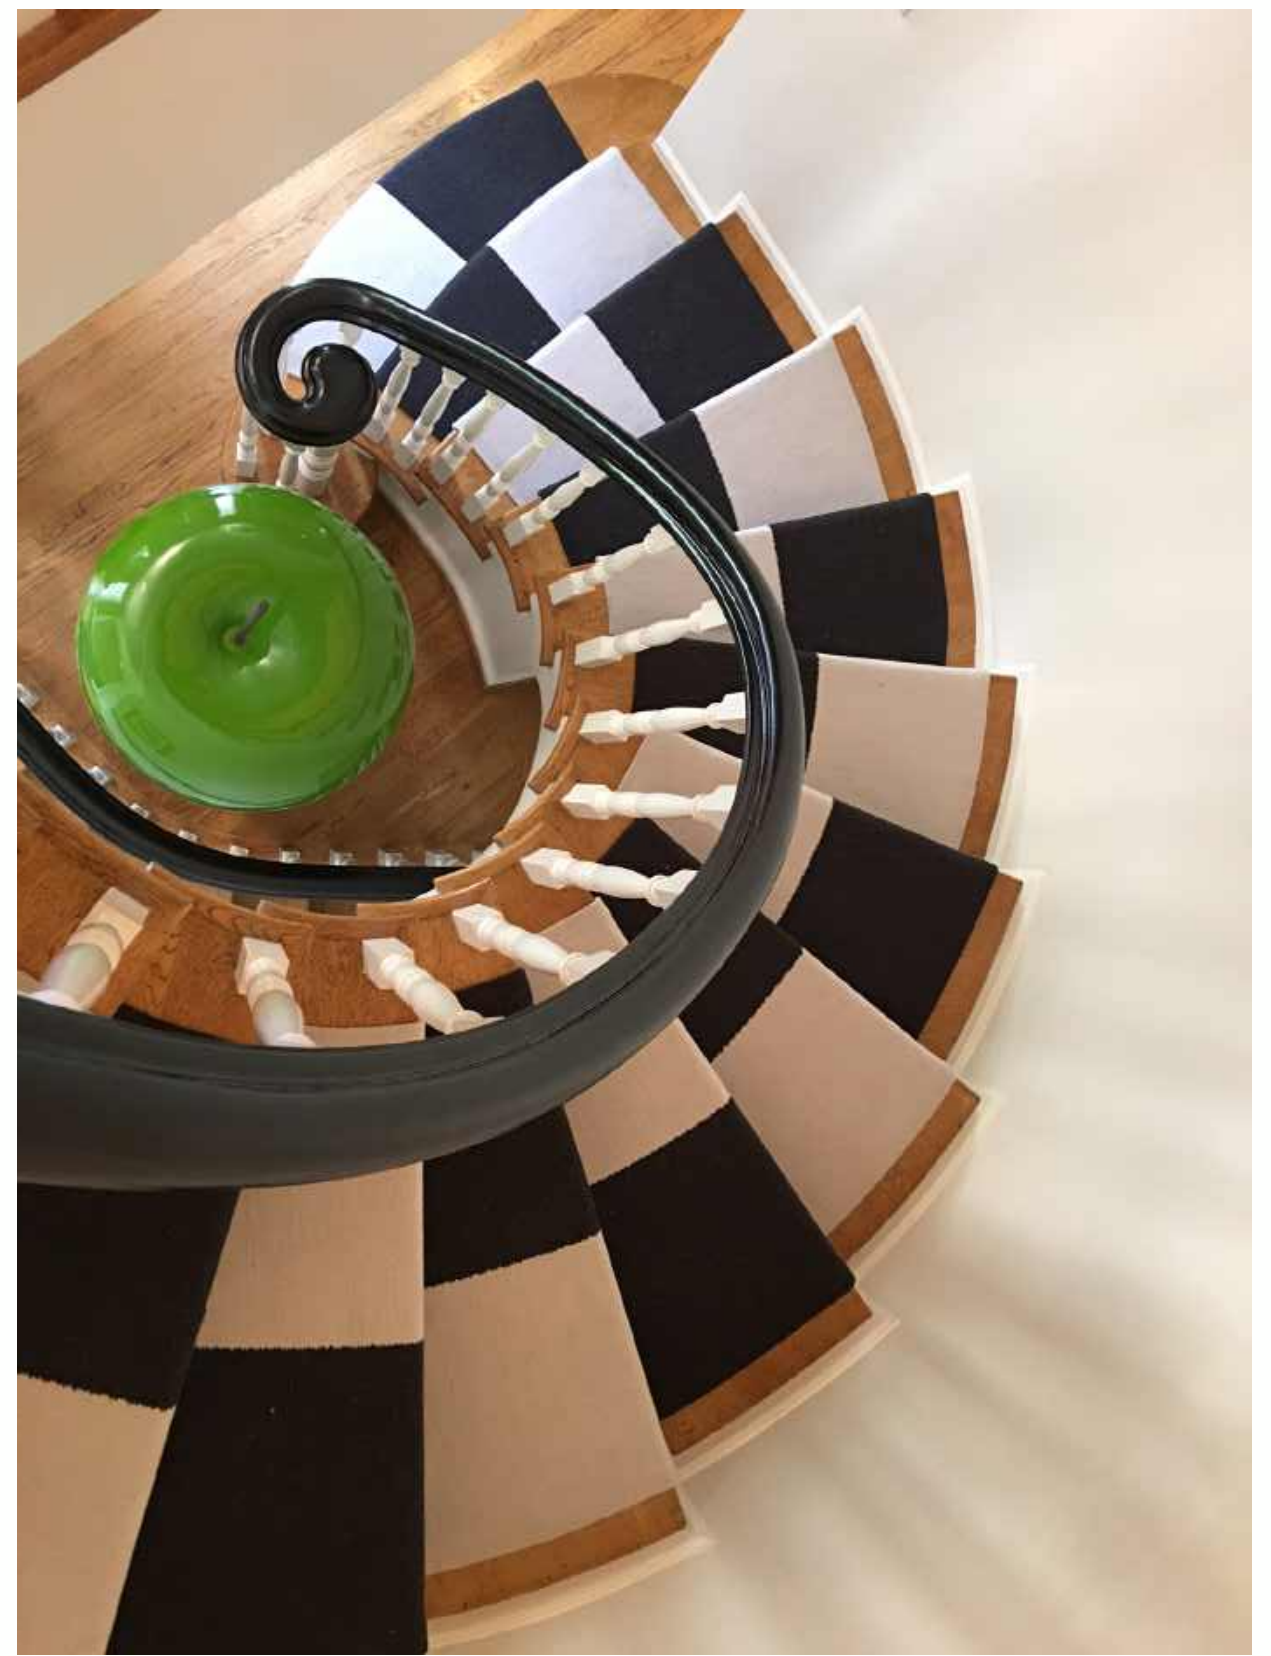

Overseas development / Wander collection for MERIDA

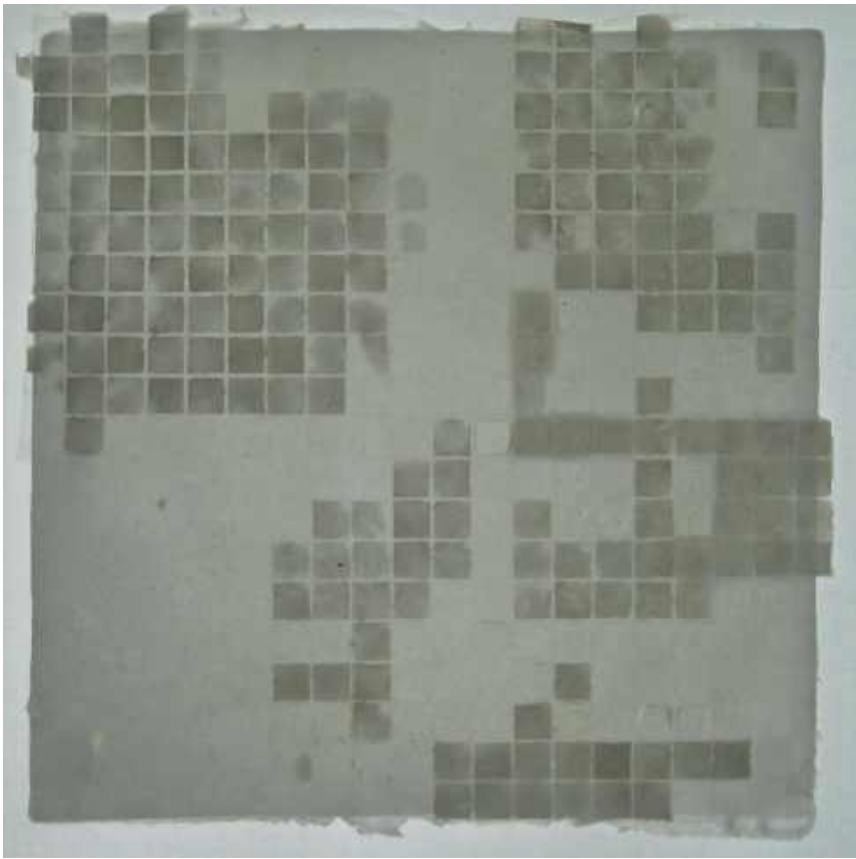

Overseas development / Wander collection for MERIDA

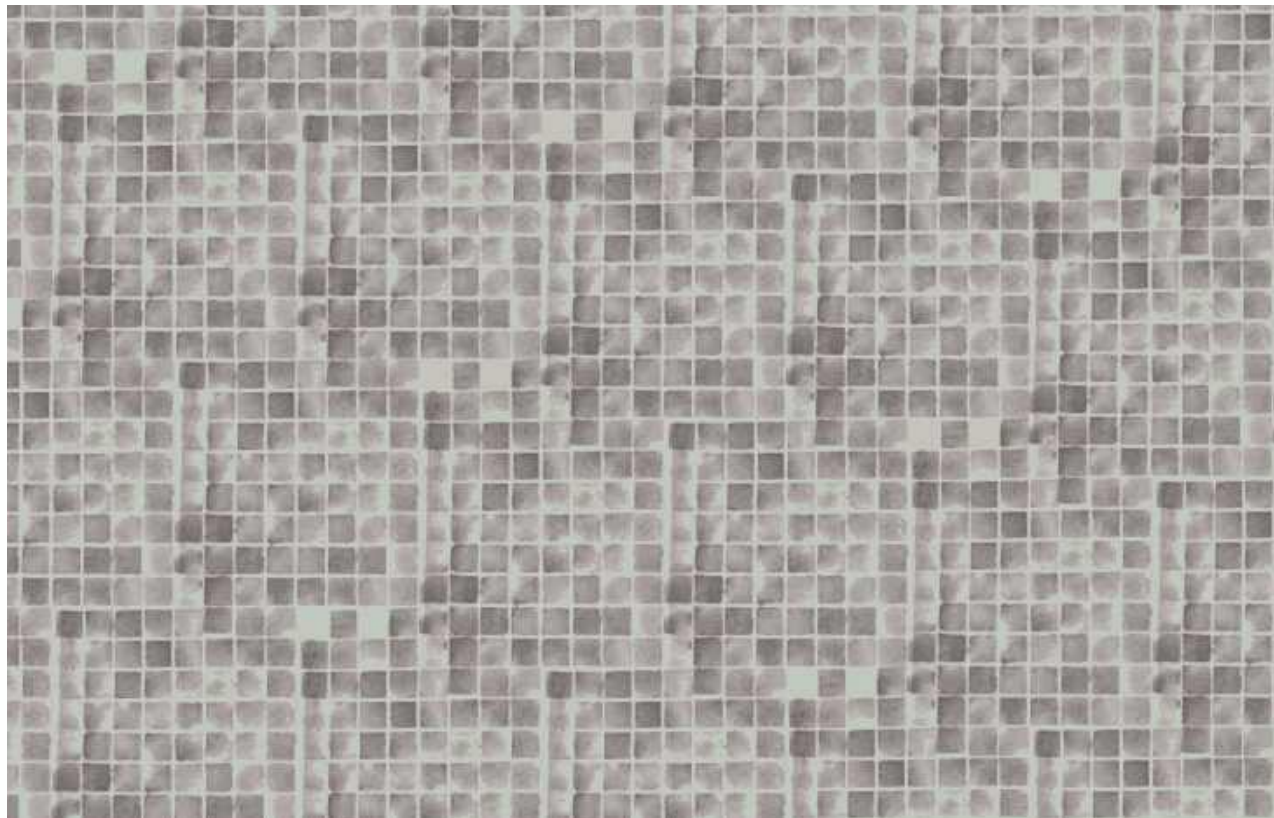

Tufted design development for Canvas collection / MERIDA

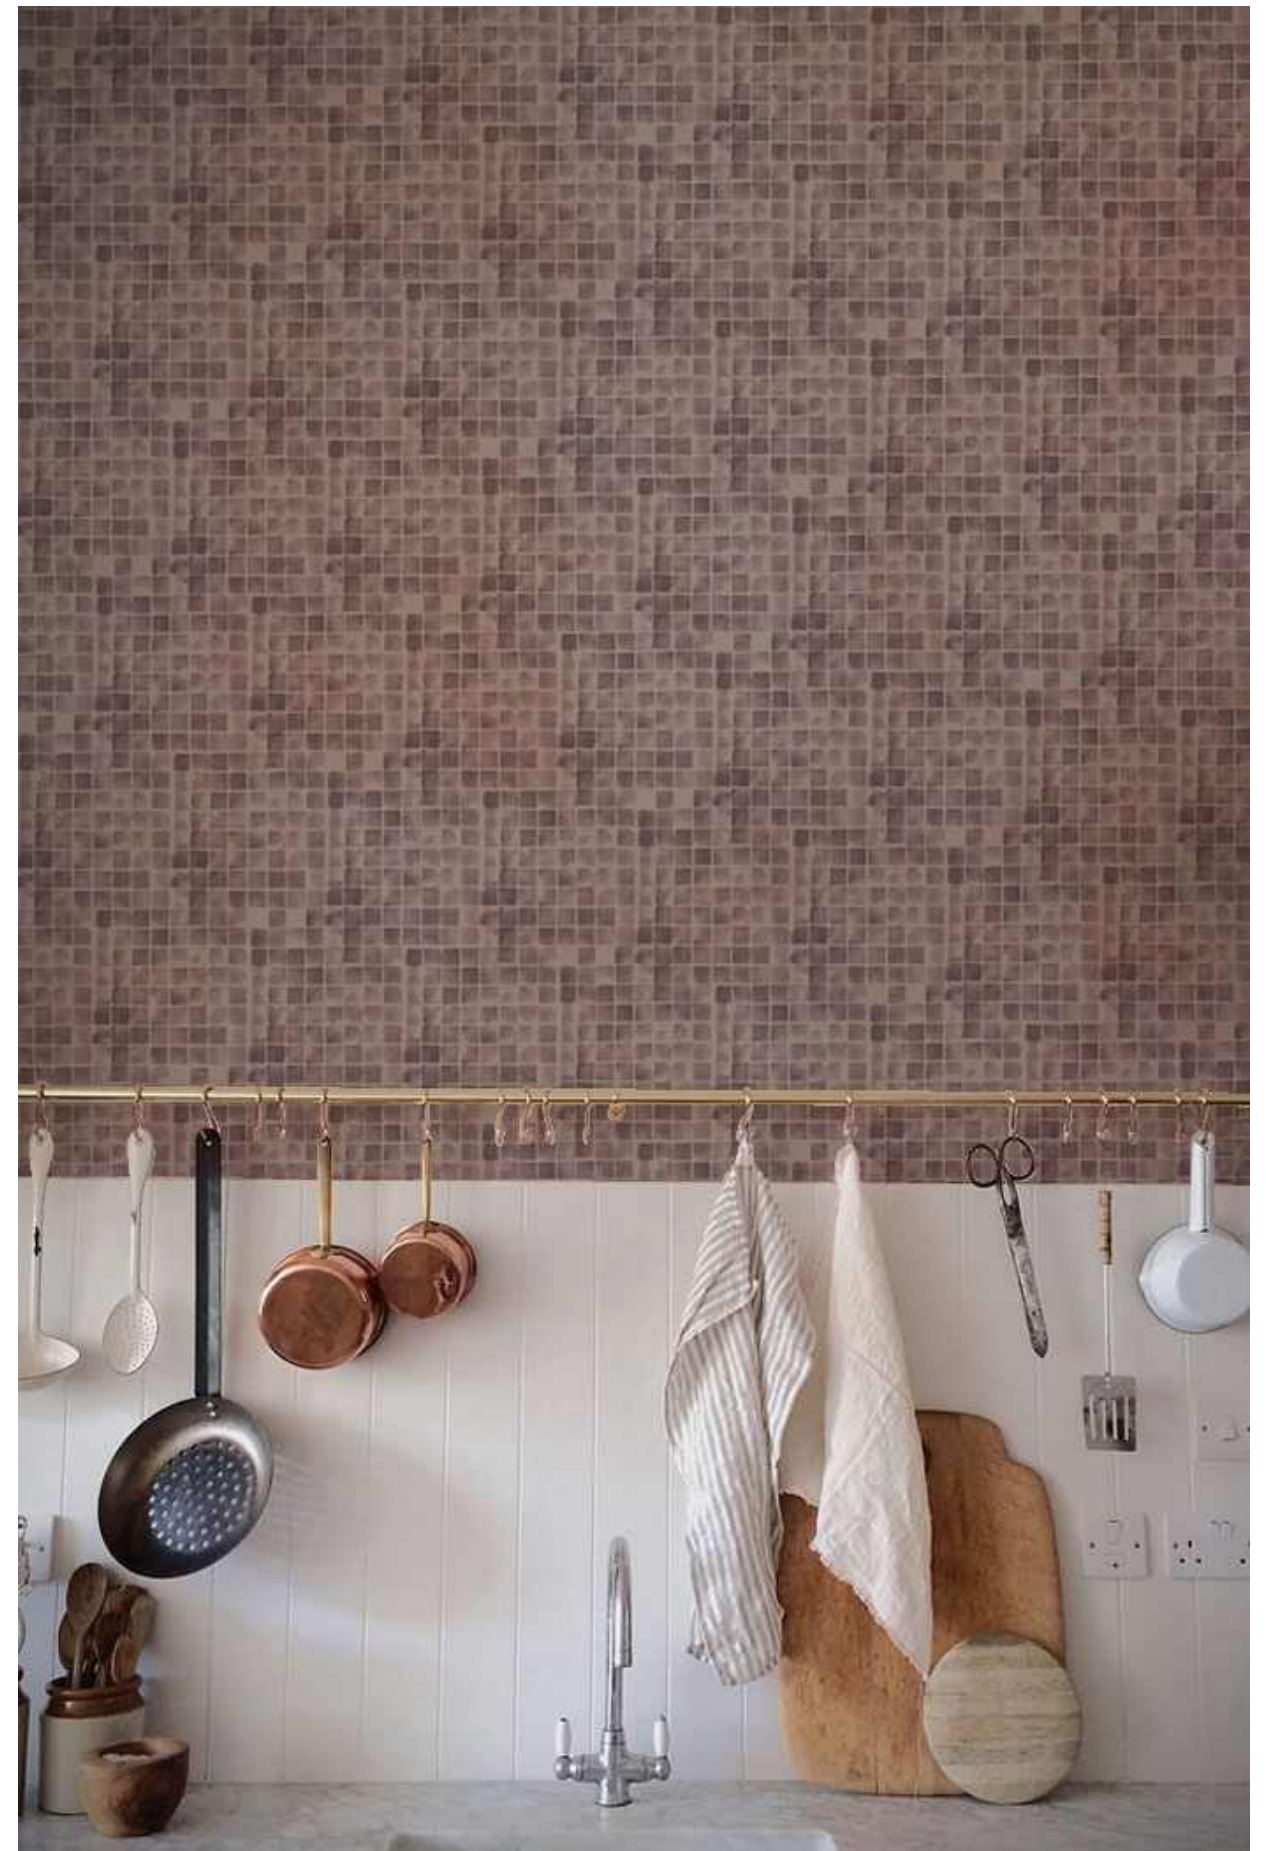

Custom development for A&D clients / MERIDA

handmade paper exploration

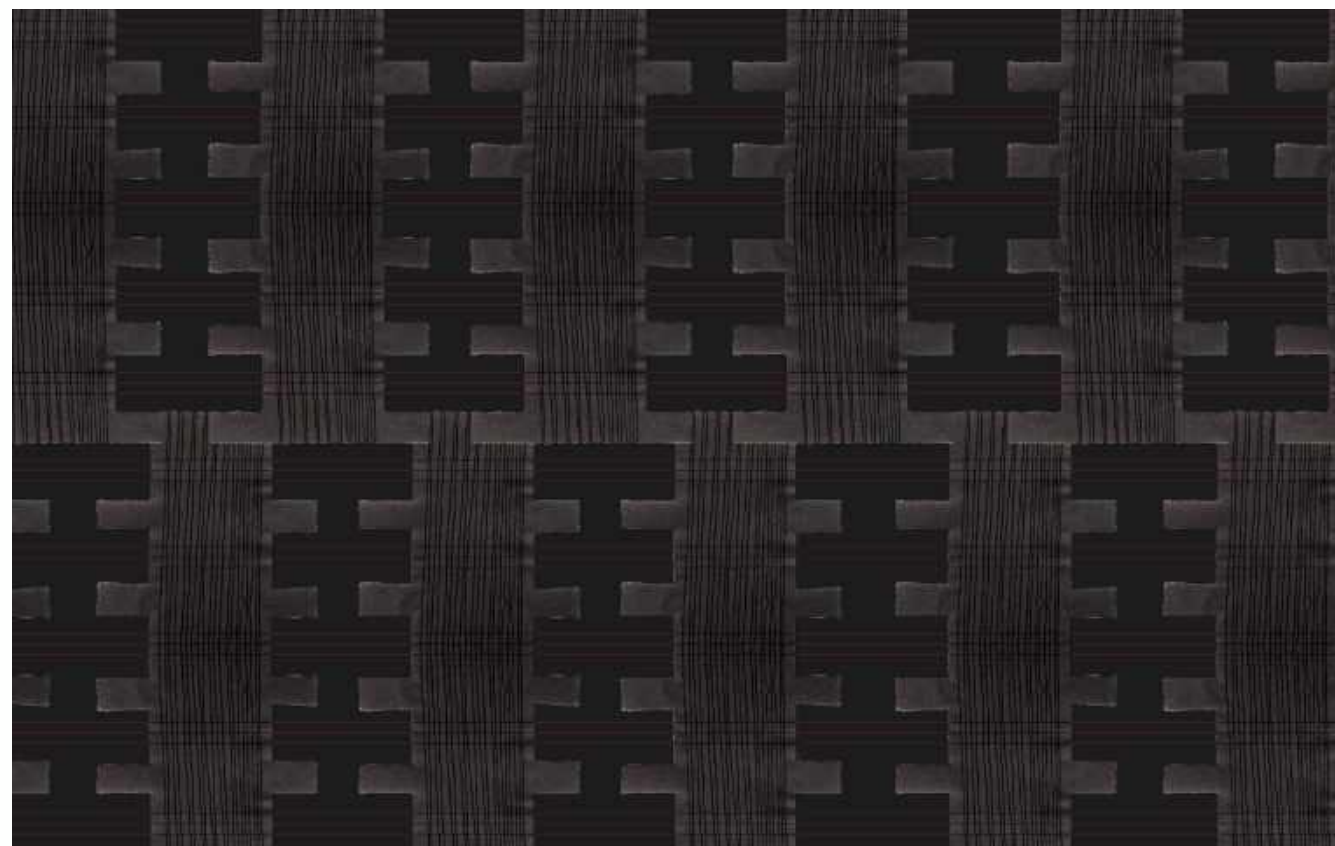

Wall covering concept inspired by handmade paper exploration
